

World on Fire

World on fire
see the tide rising higher
winds of change
gonna' blow it all away

World on fire
see the tide rising higher
winds of change
gonna' blow it all away

See the lightening
striking down
see the children
circle round... circle round...

So much lost.....
so little left to lose
oh my children
what you gonna' do?

What you gonna' do... what you gonna' do..
what you gonna' do.. what you gonna' do
world on fire, world on fire,
see the tide rising higher

Hear the church bell as it chimes
in and out of time... in and out of time
out of time
out of time.

See the tide rising
high-er.
