

## Lady of the Lowlands

---

I can see you  
by the way that you smile  
I'd like to stay here  
stay with you for a while  
'cause my lady of the lowlands  
I sure like your style  
walking hand and hand with you  
through the morning light

I think you might know me  
you've seen me around  
in the flowers of the meadow  
and the children of the town  
and you know I'm no stranger  
to being let down  
just a wayfaring traveler  
homeward bound

See the geese a flyin'  
in chevron flight  
see the moon a rising  
rising way up high  
and there ain't no use to wonder  
no use to wonder why  
the lady of the lowlands  
keeps singing through the night

the lady of the lowlands  
keeps singing through the night,

singing through the night...
